## MS805 Group Assignment AY2024-2025

OLLSCOIL NA GAILLIMHE  
UNIVERSITY OF GALWAY

### Part 1. Academic Integrity Declaration

*"We hereby declare that our work submitted for this assessment task is entirely our work, except where the work of others has been declared and acknowledged in line with [QA220 Academic Integrity Policy](#) and [QA616 University of Galway Student Code of Conduct](#). Furthermore, we declare that we have EITHER contributed equally and fairly to this work OR have contributed to different amounts as indicated in the '% contribution' column in the signature table below."*

Signed by:

Student ID number	Full name	Signature*	% contribution
24240627	Akshata Anil Ghumatkar		25%
24236930	Amit Kumar		25%
24240117	Anuja Raghu Menon		25%
24233443	Cerita Gerard		25%

### Part 2. Special Features

As per the NUI Grade Descriptors, Acceptable and Satisfactory performance will ensure a Pass grade (mark range 40–49). If you believe your work warrants a higher grade, please **briefly** describe below any special features of your work that would provide justification for the higher grade:

Special features
The database design we have picked goes far beyond just the basics of the case study (Share the Meal Fundraising Campaigns). It takes into account the extra features that the website needs for international support, data management, financial management and marketing. These important parts include the "currency", "location", "payment_details", and "image" which is really important for user engagement by letting people choose different type of donation i.e. once or monthly, and no matter where the supporter is, they can give amount in whatever currency they

like. The images connected to campaigns and beneficiaries can be used for promoting the fundraising goals.

\* You may either: 1) print this document and fill/sign it by hand with an ink/ballpoint pen; OR 2) fill this document digitally and insert a digital image of your signature, if you wish; OR 3) fill this document digitally and insert a [digital signature](#) using software of your choice. If none of those options are suitable given your situation, then please contact the lecturer of MS5130 at [blair.wang@universityofgalway.ie](mailto:blair.wang@universityofgalway.ie) by email.
